Business Insights

1. Revenue Insight

ApnoMart generated approximately ₹16.25 million in total sales. Furniture was the highest-selling product category.

2. Profitability Insight

ApnoMart earned approximately ₹4.42 million in total profit, with an average profit margin of 27.18%.

3. Customer Behavior Insight

The dashboard shows sales across different product categories and regions. Customer purchasing patterns can be analyzed by comparing sales performance across these groups.

Strategic Recommendation

ApnoMart should focus on its best-performing product categories and improve sales in lower-performing regions to increase overall revenue and profitability.
